

Industria Electromagnética de México S.A. de C.V.

Manufacture and assembly of wire and cable harnesses, and electrical systems

St. Clair Technologies, Inc. was established in 1951 and has been manufacturing in Mexico since 1996, utilizing two facilities in the state of Sonora. Both facilities are equipped with world class equipment and processes to support wire harness manufacturing. St. Clair is a global provider of innovative solutions for electrical systems and serves diverse markets including automotive, military, bus, heavy equipment and others.

At St. Clair, we take pride in listening to our customers' needs and how they want to do business. "Full Service" and "Partnership" are not just buzz-words to us. We realize the success of our customers depends on our ability to respond to change, to deliver quality and reliability and to reduce manufacturing costs.

Products

- Wire and cable harnesses
- Electrical systems
- Custom components
- Production and assembly

Processes

- Automated cutting and terminating
- Ink jet marking / hot stamp marking
- Manual terminating
- Potted socket connectors & relays
- Braiding
- Molding
- Custom component design
- Labeling
- Bar code
- Ultrasonic welds
- Soldering
- Assembly
- IDC processing
- Coax cable assembly
- Electrical testing

Capabilities

- Guaymas, Mexico facility of 55,000 sq. ft.
- Roca fuerte, Mexico facility of 70,000 sq. ft.
