

Liberty Spring Querétaro S. de R.L. de C.V.

Manufacture of automotive springs

Liberty Spring is a world class spring manufacturer specialized in the area of custom high precision springs, and has been involved in the automotive industry for 33 years. The company was one of the first to master the complex cold bending of very hard materials specific to the needs of the automotive industry. Over the years they have also carved themselves an excellent place in the recreational vehicle industry through innovation, great flexibility and products of superior quality. Liberty Spring employs near 700 workers worldwide. In 2014, Liberty Spring established its operation in Queretaro and is located in the O'Donnell Industrial Park to closely serve its main customers in the region. The company has also manufacturing facilities in Ciudad Juarez, Chihuahua.

Products
