

Metelix de México S. de R.L. de C.V.

Full service, custom manufacturing company

Metelix is a leading edge manufacturing company specialized in systems manufactured by blow & injection molding, precision metal machining / fabrication and composite construction.

As a full service manufacturer, Metelix manages all projects in-house from start to finish from design concept to final delivery of manufactured products.

Products

- Brake cooler ducts
- HVAC ducts
- Engine ducts
- Resonators
- Washer / coolant reservoirs
- Armrests
- Headrests
- Spacers / fillers

Processes

- Plastic molding
- Blow molding
- Precision machining
- Fabrication
- Composites

Capabilities

All projects in-house from design concept to final delivery of manufactured products. Design, proof of concept, prototyping, testing and advanced manufacturing

Product design: Full CAD capabilities to support customer requirements; virtual engineering techniques for validation of design; design for manufacture for our processes

Tooling capability: full tool design ability; complete mold and tool making facility; finishing and assembly automation integration

Manufacturing: blow molding up to 25kg shot, 3m in length; ancillary injection molding; composites and insert molding; robotic finishing and assembly; CNC machining
