

Mitchell Plastics

Manufacture of painted and decorated plastic assemblies

Mitchell Plastics is a full service Tier 1 supplier to North American OEMs, supplying interior functional and decorative parts from five manufacturing locations in North America. Hydrographic and IMF decorating, piano black parts, and multiple paint technologies have established Mitchell Plastics as the key supplier for interior parts. The company provides full floor and overhead console assemblies, electronic assemblies and functional interior assemblies for many of the North American based vehicles.

Products

- Interior
- Climate control / HVAC
- Small / general parts
- Consoles and IP

Processes

- Plastic injection molding mechanisms
- UltraTC®
- UltraTherm®
- UltraCycle®
- Paint
- Hydrographic decorating
- IMF

Capabilities

- 5 manufacturing facilities with more than 900,000 sq. ft
- Injection molding capabilities: 240 presses from 40 T to 3,000 T, with 2 and 3 shot molding capability
- Multi injection technology
- 22 robotic paint lines, 1k, 2k, clearcoat and soft touch
- UltraTC®, UltraTherm®, UltraCycle®: paint replacement technology for high & low gloss
- Mechanisms: kinematic design & assembly technologies
- Hydrographic decorating: from pattern mastering to production
- Appliqué: vacuum forming and clean room environment
