

## PPD Plástico S.A. de C.V.

### Contract manufacturer of engineered polymer products and rubber compounds

As a full-service contract manufacturer, PPD Group offers integrated, innovative solutions within a wide portfolio of engineered polymer products and rubber compounds. Since 1960, PPD has developed significant expertise in a wide variety of markets including transportation, agriculture, industrial equipment, and recreational vehicles, as well as mining, consumer goods and medical devices.

From our Mexican facility, PPD offers a broad range of seating solutions. Our highly specialized operations include P.U. molding and fabrication for several industries.

PPD also provides complete thermoplastic injection services in a competitive and reliable package. We mold parts to your exact specifications, based on your mechanical, aesthetic, color, or fit-form-function requirements. Our combined expertise and installations provide us with an outstanding ability to overcome complex industrial and consumer product manufacturing challenges.

### Products

Thermoplastic molding and seating fabrication services

- Plastic component molding
- Flexible polyurethane molding
- Cutting and sewing operations
- Complete seat assembly

### Processes

- Plastic injection molding
- Polyurethane molding
- Integrated seat fabrication
- Cutting & sewing, assembly

### Capabilities

- Mexico expertise:
- Integrated seating fabrication
- High performance injection mold expertise and capabilities
- Secondary operations – assembly & sub-assembly, special packaging
- Injection molding of small, medium, and large plastic parts
