

Select Tool de México S. de R.L. de C.V.

Manufacturer of fixtures & gauges, automation and specialty tooling for the automotive industry

Select Tool is an established manufacturer of fixtures & gauges, automation and specialty tooling for the automotive industry on a global scale. We are a full service supplier capable through concept, design, machining, and assembly. With a dedicated team of highly experienced program managers, designers / engineers, and tool makers all housed in our modern state-of-the-art facilities, we have a depth of personnel and equipment that uniquely positions us to design and build innovative manufacturing solutions at a low cost advantage. We engineer custom solutions. Our automation systems are designed for seamless integration within each customer's unique processes. Our fixtures and gauges are products of a trusted, meticulous design process, precisely built to facilitate fit, function, and robust reproducibility.

Our operating philosophy: High quality in everything we do, genuine concern for our customer's success, full customer support at all times, flexibility in achieving cost targets, innovative engineering and design, lean manufacturing.

Products

- Checking fixtures
