

## XL Tech de México S.A. de C.V.

### Manufacturer of automotive stamping dies & production stampings

XL Tech is an ISO 9001-2008 registered world-class manufacturer of automotive stamping dies & production stampings located in Queretaro, Mexico. XL Tech / XL Tool have been supplying complex progressive and transfer dies to the North American automotive industry for over 20 years.

All tools are designed in-house by XL Tool's skilled design team using the latest CAD / CAM modeling and simulation tools. The dies are manufactured in our 2 well-appointed tool rooms equipped with large bed CNC machines and high capacity overhead cranes. XL has a strong reputation with some of the industries' most demanding customers for on-time delivery of quality tools that run at rate and within spec.

To better meet the requirements of our customer base, XL has expanded its operations to include high volume production stamping with servo feed equipped large bed presses ranging from 110-1000 T. Coupled with its die making expertise, XL Tech is a cost effective and reliable choice for your high quality complex stamping requirements.

### Products

Tooling stamped parts

-Metal stamping dies, die repairs, engineering changes, metal stampings for suspension/steering/wheel & tire

Stamped parts

-Axle/brake/body control and body and exterior

### Processes

Metalforming

- Stamping
  - Machining
  - Welding
- Assembly

### Capabilities

2 well-appointed tool rooms equipped with large bed CNC machines and high capacity overhead cranes

High volume production stamping with servo feed equipped large bed presses ranging from 110-1000 T

10 T crane capacity
